

AUDITING

Identifying risks, avoiding dangers, seizing opportunities - professional audits secure the long-term path, create transparency, and lead to sustainable improvements. In doing so, procedures are constantly adjusted to specific business risks, market developments, and to your individual needs.

- Limited audits for companies, associations, and trust funds/foundations
 - Audits for start-ups, capital reduction or increase, and special audits
 - Audits that require authorised legal audit experts
 - Design and testing of internal control systems (ICS)
 - Special audits in accordance with mandates and statutes
 - Internal audits
