
BOOKKEEPING / ACCOUNTING

Comprehensive accounting along with controlling tailored to meet your requirements are indispensable foundations of corporate success. Critical keys to success can be also identified early. By providing a partnership and expert advice which can be relied upon, you are able to keep an overview at all times.

- Planning and organization of accounting
- Preparation of interim financial statements and annual financial statements, including advice on final statements
- Consulting and implementation of start-ups, reorganizations, and liquidations
- Discrete salary settlement for your business or executives
- Creating invoices (VAT, social and personal insurance)
- Bookkeeping at your company location
- Acquisition of board of directors mandates as well as domicile and fiduciary mandates
